Cytracom Fax (cFax)

Online Faxing Made Simple

Fax isn't going away anytime soon. Cytracom partnered with Documo, a developer of next-generation document workflow solutions, to develop a truly integrated fax solution. Simplicity is the mission of Cytracom, and the Documo fax solution met that criteria for inclusion in our portfolio. Check out some of the features that set us apart:

- **Fax-only infrastructure** - the backbone is built and optimized specifically for fax, enabling maximum quality and deliverability.

- **Automatic cloud storage** - Never lose another fax. Every sent and received fax is automatically stored securely in the cloud.

- **Security and compliance** - cFax is built to satisfy even the most stringent of security and compliance requirements.

- **Advanced admin portal** - We offer a robust, carrier-class administrative web interface.

Email to Fax
Send and receive faxes right from your email. No software to download. No learning curve. Turn any device into a fax machine.
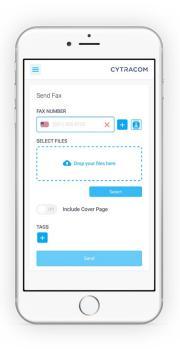

Web Portal
Our solution instantly fax-enables any Internet connected device. The modern, intuitive web interface takes the clunkiness out of fax.

FaxBridge
Cloud-enable your existing physical fax devices with Documo's reliable, secure HTTPS fax adapter. Maximize security and control.

Print to Fax
Send a fax from any desktop app that allows you to print. Simply download and install the driver (Windows only).
